Recommendation Letter

To the Selection Committee,

Subject: Recommendation Letter for Mohammad Omar Khawaja Zada

Date: 4 April 2026

Dear Members of the Selection Committee,

I, Gulbahar Gul, am honored to recommend Mohammad Omar Khawaja Zada for your scholarship. I have taught Mohammad Omar in Computer Science a few years at Hazrat Ibrahim Khalilullah Boys High School, and he stands out as one of the most motivated, capable, and curious students I have encountered.

Omar has a deep passion for technology, particularly networking, and approaches every problem with a natural problem-solving mindset. He has mastered concepts such as VLANs, trunking, and the STP protocol, demonstrating both theoretical understanding and practical application. For example, during a networking project, Omar successfully designed and configured a multi-switch network that was robust, efficient, and fully functional going far beyond what was required.

His resilience and persistence are equally remarkable. Challenges never discourage him; he carefully analyzes issues, tests solutions, and keeps iterating until he succeeds. This mindset, combined with his technical skills and love for networking, makes him an outstanding student and a natural problem solver. He often stayed after class to understand an issue.

Omar is also an excellent collaborator. He supports his classmates with patience and clarity, explaining complex concepts making them easy to understand. His teamwork and positive attitude earn him respect and admiration from both classmates and teachers.

I am confident Omar will contribute meaningfully to the field of technology in the future. He has my strongest recommendation and will make the most of every opportunity he receives.

Sincerely,

Gulbahar Gul

Computer Science Teacher
